

I live in the mountains and cannot pick up any radio stations, cell phones or local T.V. I cannot even get cable. Please don't take away my satellite radio. Please reject the NAB's petition 04-160. I need my XM radio. Also is there any way I can get cable or local news on T.V. or at least NBC? I would let someone put up towers for TV or Cell phone on my property if they would. Thank you very much. Kelly Ferguson
